

# Fundamentals of Drawing

Instructor, Karen Bash

## Materials List

Class instruction is based on lectures and demos. I do not give hand-outs with information. You will need to take notes in your drawing pad, so you have the information available with your sketching exercises.

### Paper

- 9" x 12" or 11" x 14" drawing pad  
Make sure you bring a pad that is called Drawing Paper, not one that is called Sketching Paper which is much lighter and not as good quality. Bring a spiral bound pad, as the sheets will not fall out when you turn a page as they do with glue bound.

### Pencils

- HB, 2B, 4B, 6B Graphite Pencils

### Erasers

- Kneaded Eraser
- All Purpose Eraser

### Blender

- Stump or Tortillon  
Get the largest size, not the small ones as these don't cover enough area
